ABOUT ME

Front-End Developer skilled in React.js, JavaScript (ES6+), and modern UI frameworks.Experienced in developing responsive, user-friendly web applications and collaborating in teams. Passionate about solving real-world problems through clean code, Problem-solving skills, and continuous learning..

EDUCATION

2024-2026

Bachelor of computer science

EXPERIENCE

Frontend Developer

Developed andmaintained React.js web applications with reusable, component-driven architecture. Collaborated with designers and backend developers to deliver responsive, cross- browser compatible interfaces. Implemented state management with Redux Toolkit, improving scalability and maintainability. Enhanced UI/UX by integrating TailwindCSS and ensuring accessibility standards. Worked with Git/GitHub to manage version control and resolve merge conflicts.
